28. Description of Change: (use additional Sheets if necessary) STMGT is relying on Exabyte Media Changer Device Driver Version 1.3 (provided by Exabyte at no charge to the users) that is not currently baselined						
29. Proposed Solution: (use additional sheets if necessary) Baseline Exabyte driver distributed by Exabyte as sol2_4c1_3u.tar.Z (driver Version 1.3) for use on the X0dis01 and X0dis02 SUN Server distribution platforms at all sites (X is the site indicator, such as g for GSFC). The version of the driver, once installed, can be established by using command "chs driver". Remove the old media change drivers.						
30. Alternate Solution: (use additional sheets if necessary)						
31. Consequences if Change(s) are not approved: (use additional sheets if necessary) The baseline will not reflect the proper drivers, potentially complicating site installations.
